Model MG-M4

Murickens group An ISO 9001:2015 certified company introduces two registered brand name MG and Flyline with low maintenance, competitive price and with the aim of power saving. In 1990 Murickens Group commenced the production in the field of Electronics, they were keen to develop a MG Dead body Mobile Mortuary which could be of help to the bereaved to preserve the departed for such time, that, the relatives arrive to pay their respect. Now Murickens Group currently has seven types of dead body preserving mobile mortuaries. The main difference between them is the exterior body materials used in the design, the top opening cover material and its design.

Being the first manufacturer and supplier of mobile mortuary in this field ,with an experience of more than 30-years.We have thousands of satisfied customers in India and different parts of the world.

Our valued and reputed clients list includes The CISF 7th Battalion Military Cam Chennai, Command hospital Chandimandir,St.Ursula hospital Pune,Shanti memorial hospital Cuttack, Dept. of Space Sriharikota, Birla research institute, Malayalee assosation Bhopal..etc. (outside Kerala). **Govt. hospitals** - Aluva, Kottayam,Varkala, Mulanthuruthy, ..etc.**Co-operate Banks** - Marayoor service co-operative bank Idukki, Karukutty service co-operative bank, etc.. (Kerala) Al-Amin medical service Bangladesh, Saudi etc.(exporting).

The MG-M4 stands out among the 7 models of mobile mortuaries built using the latest technology of the Murickens Group. This system has only one part i.e. the body part. The compressor and electrical supply system are located at the bottom of this body part, which is a feature of this model. In this model the Pure Glass Top 8 mm Fitted on wooden frame.

The top cover glass is made up of pure glass which is inserted on a beautifully designed wooden frame. It uses Fisher emersion make compressor that operate at very low power. So that this system give the customer confidence. Many people are forced to put up a stand-by mortuary at all times because of fear that models using cheap low-end compressors will stop at any moment. So, far-sighted consumers choose models that use a quality compressor which is a little bit expensive. The glass top used in this model shows the luxurious beauty of this mortuary. All gas lines on the refrigeration side are made of copper, so the nightmare of gas leakage is eliminated. The lighting system used in this model illustrates the insight. Made of high-quality stainless steel, the body structure ensures long life. The dimension inside this model is designed so as to accommodate all most all types of body measures.
