### **Mbile Mortuary– Export Model MG-M1**

Murickens Group An ISO 9001:2015 certified company introduces two registered brand name **MG** and **Flyline** with low maintenance, competitive price and with the aim of power saving. In 1990 Murickens Group commenced the production in the field of Electronics; they were keen to develop a MG Dead body Mobile Mortuary which could be of help to the bereaved to preserve the departed for such time, that, the relatives arrive to pay their respect.

Now Murickens Group currently has seven types of dead body preserving mobile mortuaries. The main difference between them is the exterior body materials used in the design, the top opening cover material and its design. Being the first manufacturer and supplier of mobile mortuary in this field ,with an experience of more than 30-years.We have thousands of satisfied customers in India and different parts of the world.

Our valued and reputed clients list includes The CISF 7th Battalion Military Cam Chennai, Command hospital Chandimandir, St. Ursula hospital Pune, Shanti memorial hospital Cuttack, Dept. of Space Sriharikota, Birla research institute, Malayalee assosation Bhopal..etc. (outside Kerala). **Govt. hospitals** - Aluva, Kottayam, Varkala, Mulanthuruthy, ..etc. **Co-operate Banks** - Marayoor service co-operative bank Idukki, Karukutty service co-operative bank, etc.. (Kerala) Al-Amin medical service Bangladesh, Saudi etc.(exporting).

MG-M1 is the first product of Murickens Group in mobile mortuary category. We keep International Quality Standard for all our products. The Murickens Group's MG-M1 model has been on the market since 1990 and is still on the market. We Murickens Group produce each of our products according to the interests of the customers. Even though it is the first model in the mobile mortuary, its sales are still in the forefront. Whether from the refrigeration side or the exterior side, it is 100% eye-catching. This model is very compatible and light weight, so it is easy to handle. Therefore it will not have any complaints. This model has two parts. Head part and the body part. The head part is slightly raised compared to these two parts. Also head part contains refrigeration unit which contain compressor, condenser coil and the unit for electrical power supply. The capillary pipe used as the cooling section in the body part is made of copper. Therefore, gas leakage and reaction between gas and metal will not occur. The body part contains necessary space for standard body types. The light fittings inside the system are arranged so that the body gets maximum light. It also has a steel tray that can hold and carry the body.

The cooling aspect of this system is as follows. We use the best compressor. Therefore the compliant rate is almost nil. Such an efficient system makes no noise at all. The acrylic top opening, which is a MG design on top of this system, is half inch or 12 mm thick which is adapted for this system. The best advantage of acrylic glass over pure glass is that the cooling radiations are minimised to half. This glass top cover, which weights very little, has four beautiful handles to lift it. The risk of rupture is very low. The system is designed so that the body can be seen from any angle. Overall this system is excellent in its service. In addition to onsite warranty and service support across Kerala. **This model's top cover is made up of acrylic glass which makes it compact and light weight. Therefore long distance transport risk is very less, so we supply this model to outside Kerala and also for exporting purpose.**

### **MG-M1 DEAD BODY FREEZER: Dimension**

Length-228.6 cm (90"), Height-66.04cm ( 26"), Width-71.12 cm (28").

Mortuary Inside length -74.5" (189 cm) Width -22 " (57 cm).

Weight :-Bottom section : 65 Kg, Top opening acrylic glass with steel :25Kg, Weight of body lifting steel structure: 7Kg

**Total weight of MG dead body mobile freezer:97 Kg**

### **MG MORTUARY COMMON FEATURES:**

▶ US Technology with low maintenance. ▶ Dead body can be preserved for longer periods. ▶ Stainless Steel stretcher. ▶ Mortuary body made-up of full Stainless steel and copper which provide complaint free working and long life. ▶ View from all angles. ▶ Fully automatic ▶ Adjustable Digital display thermo meter. ▶ Input voltmeter. ▶ Separate on-off switch for voltmeter , lights and compressor. ▶ Insulation - PUF system (New technology). ▶ Inner side light. ▶ Top door opening with side view Acrylic Glass ▶ Attractive top door handle 4 No. ▶ Light weight and compact size. ▶ Noiseless functioning. ▶ Wheel mounted (smooth and strong four wheels). ▶ Attractive look and long durability. ▶ Temperature from -20C to -20oC.

## TECHNICAL FEATURES OF MG-M1 MOBILE MORTUARY:

MG- M1 MOBILE MORTUARY	
MG- M1	Compact and Standard Model with Acrylic Glass Top
Input volt	AC power 220-230V
Top Opening Door	Single unbreakable top opening with rectangular MG design 12 mm acrylic (Fibre) Glass.
Dimension	Length x Height x Width
MG- M1(Fiber Standard)	90 " x 26 " x 28 " : ( 228.6 cm x 66.04 cm x 71.12 cm)
Mortuary Inside length	74.5 inches (189 cm)
Mortuary Inside Width	22 inches ( 57 cm)
Weight of mortuary	Below 100 Kg including body lifting stretcher
Compressor	Fisher / Emersion : 250 watts , model 415
Total system power	350 w including fan, lights and compressor
Temperature	Digital display, adjustable temperature
Structure of the body	Stainless-steel and copper ,Outer Nonmagnetic Steel 202,Gauge 22, Inner Steel 304 Gauge 26, Structure 202 Gauge 26
Applicable generator	2000VA, 2800 VA or 3000 VA
Applicable stabilizer	1.5 kva wide range special
Above dimensions will change , according to the model
