Mobile Mortuary - Export Model MG-Classic-1

Murickens group An ISO 9001:2015 certified company introduces two registered brand name MG and Flyline with low maintenance, competitive price and with the aim of power saving. In 1990 Murickens Group commenced the production in the field of Electronics, they were keen to develop a MG Dead body Mobile Mortuary which could be of help to the bereaved to preserve the departed for such time, that, the relatives arrive to pay their respect. Now Murickens Group currently has seven types of dead body preserving mobile mortuaries. The main difference between the two is the exterior body materials used in the design, the top opening cover material and its design.

Being the first manufacturer and supplier of mobile mortuary in this field ,with an experience of more than 30-years. We have thousands of satisfied customers in India and different parts of the world.

Our valued and reputed clients list includes The CISF 7th Battalion Military Cam Chennai, Command hospital Chandimandir, St. Ursula hospital Pune, Shanti memorial hospital Cuttack, Dept. of Space Sriharikota, Birla research institute, Malayalee assosation Bhopal..etc. (outside Kerala). **Govt. hospitals** - Aluva, Kottayam, Varkala, Mulanthuruthy, ..etc. **Co-operate Banks** - Marayoor service co-operative bank Idukki, Karukutty service co-operative bank, etc.. (Kerala) Al-Amin medical service Bangladesh, Saudi etc.(exporting).

Another latest model from the Murickens Group, the MG Classic-1 is designed to suit the tastes and opinions of its customers. This system has two parts. One head part & the other is the body part. The head part is fitted with the required condensing unit and compressor on the refrigeration side and has an electric power supply system. The cooling section in body part is made up of copper capillary pipes which is of low complaint rates as compared to the capillary tubes which is made up of Al/GI which are used in other market dead body freezers. MG Classic 1 is designed to be complaint-free.

The space inside the dead body freezer is of standard size so that almost all types of body can be preserved. Its body material is made up of food-grade 304 steel and is mirror polished. The top opening is a semi-octagonal acrylic glass design with a 10 mm thickness. This model, MG Classic 1 is very compact and light weight, so we can handle it very easily.

This is a Variety design by Murickens Group. Its main attraction is a beautifully designed steel frame. The handle is also fitted in this frame. In addition to onsite supply and services across Kerala, **Its top opening class is made in Acrylic Glass so it is a light weight and very compact model with low risk factors in transportation. This model is mostly used for applying outside Kerala as well as outside India**
